ABN 38 287 972 120

## RULES & GENERAL INFORMATION

There are limited rules, basically you are driving your car on public roads, so you need to comply with all normal road rules.

You will be provided with route notes which provide directions for that part of the event. The route notes will provide information such as distances for turns or similar and comments such as:

- TR Turn Right
- KL Keep Left
- SO Straight on
- C Caution, i.e. there may be a sharp bend, a crest, ruts or similar, a C maybe notated where regular roads signs are not displayed. If there is a road sign, the feature may not be recorded on the route notes,
- CC Caution caution, as per above but more severe,
- CCC Stop and look before proceeding

In addition to the notes, there may be questions or other information within the route notes.

You have a two-way radio, use it to advise other participants if you note an unmarked hazard or similar.

At the start each day at the checkout location– reset your trip meter to zero (000), all measurements for the route are taken from that location.

The AM & PM sections of the day are separated by a lunch break with other stops along the way.

Both AM & PM routes may incorporate a coffee, drinks or fun stop which shouldn't be missed.

Each Vehicle will be checked through at checkpoints:

- Morning departure
- Lunch arrival and departure
- Evening arrival
- **You MUST report into these check points at each of these times.**
- 

It is essential that you follow the route and not take alternative routes or stop at locations along the way which are not designation coffee/drinks stops or for a call of nature. If you need to leave the route for any reason, firstly advise Nigel of your proposed route digression.

A typical day's timing could be:

8.00 am	Breakfast
8.30 am	Start
Noon to 1.00 pm	Lunch
